

CHAPTER SEVENTEEN

Healthy Home Solutions

AIR FRESHENER

To make a fresh smelling and safe air freshener, combine 4 oz of *Sol-U-Mel* with water in a 24 oz spray bottle.

ANT KILLER

Spray concentrated *PreSpot* on areas where ants congregate. Be aware of the surface of these areas when using *PreSpot* as it can take the finish off of some wooden floors.

An alternate idea is to combine 1 oz of *MelaMagic* and 1 oz of *Sol-U-Mel* in a 24-oz bottle and fill with water. This works particularly well with large black ants.

Another simple solution is *Tough & Tender*. It will kill ants.

ANT PREVENTION

If you prefer to just prevent ants, simply spray the most likely areas with *PreSpot*.

APPLIANCES

Unplug all electrical appliances before cleaning them. Use 1½ tsp of *Tough & Tender* and 1 capful of *Sol-U-Mel* combined in a 24-oz spray bottle filled with water to clean your kitchen appliances. Spray your appliance and allow it to set for a moment before wiping. Alternatively, try the *Tough & Tender Wipes*.

For heavier cleaning, add 4 oz of *MelaMagic* and 1 capful of *Sol-U-Mel* to a gallon of water. This is also an excellent grease cutter.

AUTOMOBILES

For dusting the inside, spray a solution of 1½ tsp of *Tough & Tender* in 24-oz of water on a cloth. Wipe the area thoroughly. Alternatively, try the *Tough & Tender Wipes* for the dashboard and other surfaces. For the windows, spray on *Clear Power* (diluted to ½ the strength suggested on the bottle) and wipe them with a soft cloth or cheap paper towels.

Rustic Touch cleans vinyl and leather. It is also great for cleaning the dash of your car. **NOTE:** Spray it on a cloth to apply. If you spray it directly on the dash, you will get it on the inside of your windshield.

Always read and follow product packaging directions and warnings.
