

For cleaning the outside of the car, in a gallon warm water add 1 oz of *Tough & Tender*. Apply with a cloth or spray bottle, and rinse with clean water.

To clean under the hood of your car, mix 1 capful of *Sol-U-Mel* and 3 oz of *MelaMagic* in a 24-oz spray bottle and fill with water. After spraying it on, let set for 10 minutes and hose off the dirt and grime.

Add 4 to 5 drops of *Tough & Tender* to every 4 oz of water in your windshield washer. It works amazingly well. (Make sure you use non-freezing washer fluid in the winter.)

## BABY WIPES

Combine 1 tsp of *Sol-U-Mel* OR 1 capful of *Nature's Cleanse* with 1 capful of *Renew Bath Oil*,  $\frac{1}{4}$  tsp of *Tough & Tender* and 2 cups of water to make very effective and cost-efficient baby or travel wipes. Cut a roll of paper towels in half and remove the cardboard roll so that you can begin pulling the towels from the center. Place the towels in a plastic container and saturate with this solution. Replace the lid and cut a "star" in the center. You can then pull the towels through the lid.

An alternate solution would be to cut a roll of 1 ply (cloth like) Viva paper towels in half and place  $\frac{1}{2}$  of the roll into a 3 quart Rubbermaid Servin' Saver bowl with a lid. Add 2 cups of water, 1-2 tbsp of *Koala Pals Hair Wash* and 2 tbsp of baby oil. If you experience problems with mold developing, add 1-2 drops of *T36-C5* to the mixture. Cover and let them soak for 10 minutes or so before using. Remove the center cardboard core and pull wipes from center and tear off.

Another recipe for baby wipes would be to use white Bounty paper towels (because they are stronger), and cut the roll in half. Take out the cardboard core. Mix in a large bowl— $2\frac{1}{2}$  cups of warm water,  $1\frac{1}{2}$  tsp of *Tough & Tender*,  $\frac{1}{2}$  tsp of *Sol-U-Mel*, and 1 capful of *Renew Bath Oil*. Stir and then put the ragged edge of the paper towels into the water first. Let this set until all the water is soaked up. Put the towels into a large plastic container with a lid. Pull from the middle. This also makes wonderful hand and face wipes. Only half of a roll of towels is used, so make 2 bowls at once.

## BALLPOINT PEN

*Sol-U-Mel* is very effective at removing ballpoint pen and many other difficult to remove items. Put a little *Sol-U-Mel* on the area and let it soak for a few minutes and then dab it with water.

## BARBECUE GRILLS

Soak your barbecue grill in a solution of 1 oz of *MelaMagic* in  $\frac{1}{2}$  gallon of water. Clean it with a brush. For the outside of the grill, use  $\frac{1}{2}$  cup of *Tough & Tender* in a 24-oz spray bottle of water and scrub with a soft brush. For baked on areas, use the *Tough & Tender* solution and let soak for a few minutes before scrubbing and rinsing.
